

### Easter Maths Challenge

1. Cut out the pieces of the egg. You should end up with 9 pieces.
2. Try to put the pieces back together to make form the egg shape again.
3. Once you have done this, try to move the pieces around to make a bird shape. You must **use all 9 pieces** when creating your shape and they **cannot overlap**.

Hint: there are more than 4 different bird shapes you can make. Can you find them all?
